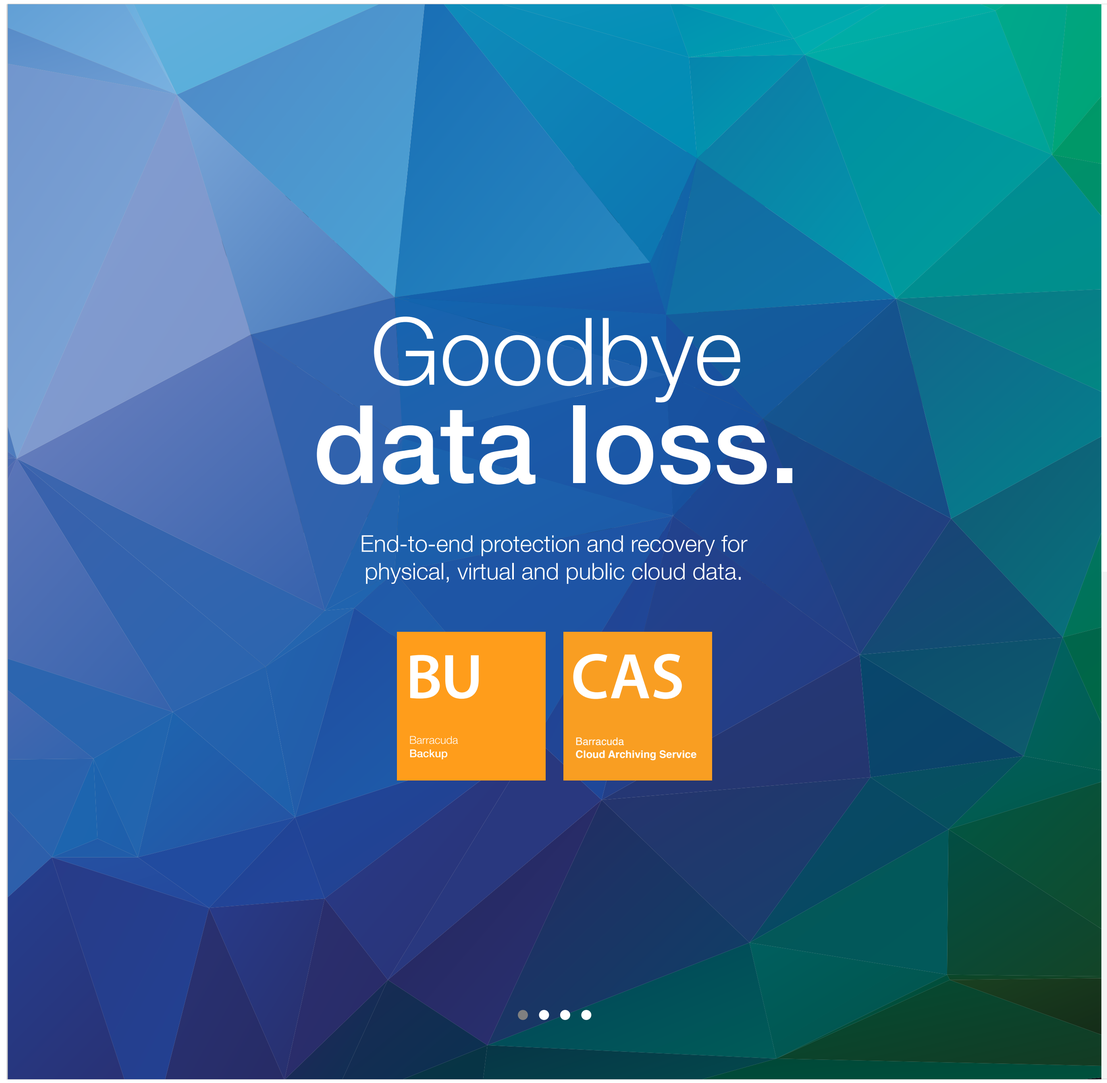
Barracuda Cloud Control

Authentication UX

PREPARED BY ETHAN KIM

Landing



English

Barracuda **Cloud Control**

Barracuda Cloud Control is a comprehensive cloud-based service that helps administrators monitor and configure multiple Barracuda Networks products.

SIGN IN

On click, it launches the authentication screen (see page 5).

Don't have a Barracuda Cloud Control account?

CREATE ACCOUNT

Demos

See how you can use the **Barracuda Cloud Control** service to manage multiple Barracuda Networks products.

CLOUD CONTROL DEMO

Both demo buttons are visible all the time.

Barracuda Essentials provides critical multi-layer security, archiving, and backup for Office 365.

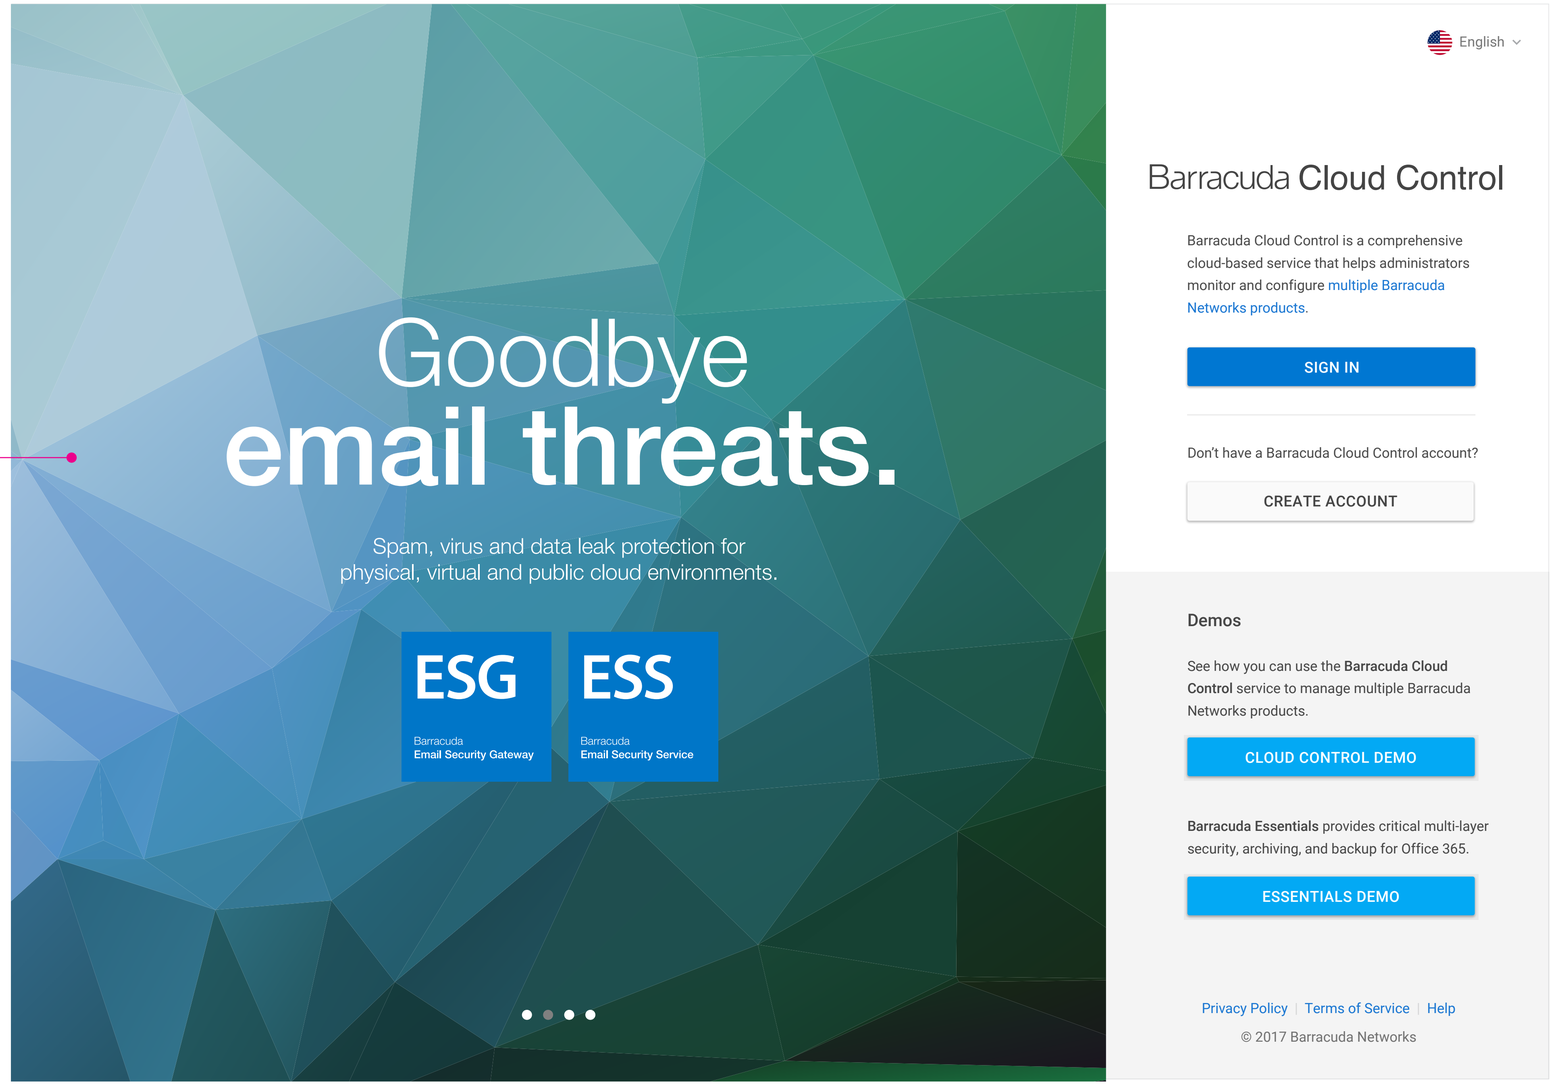
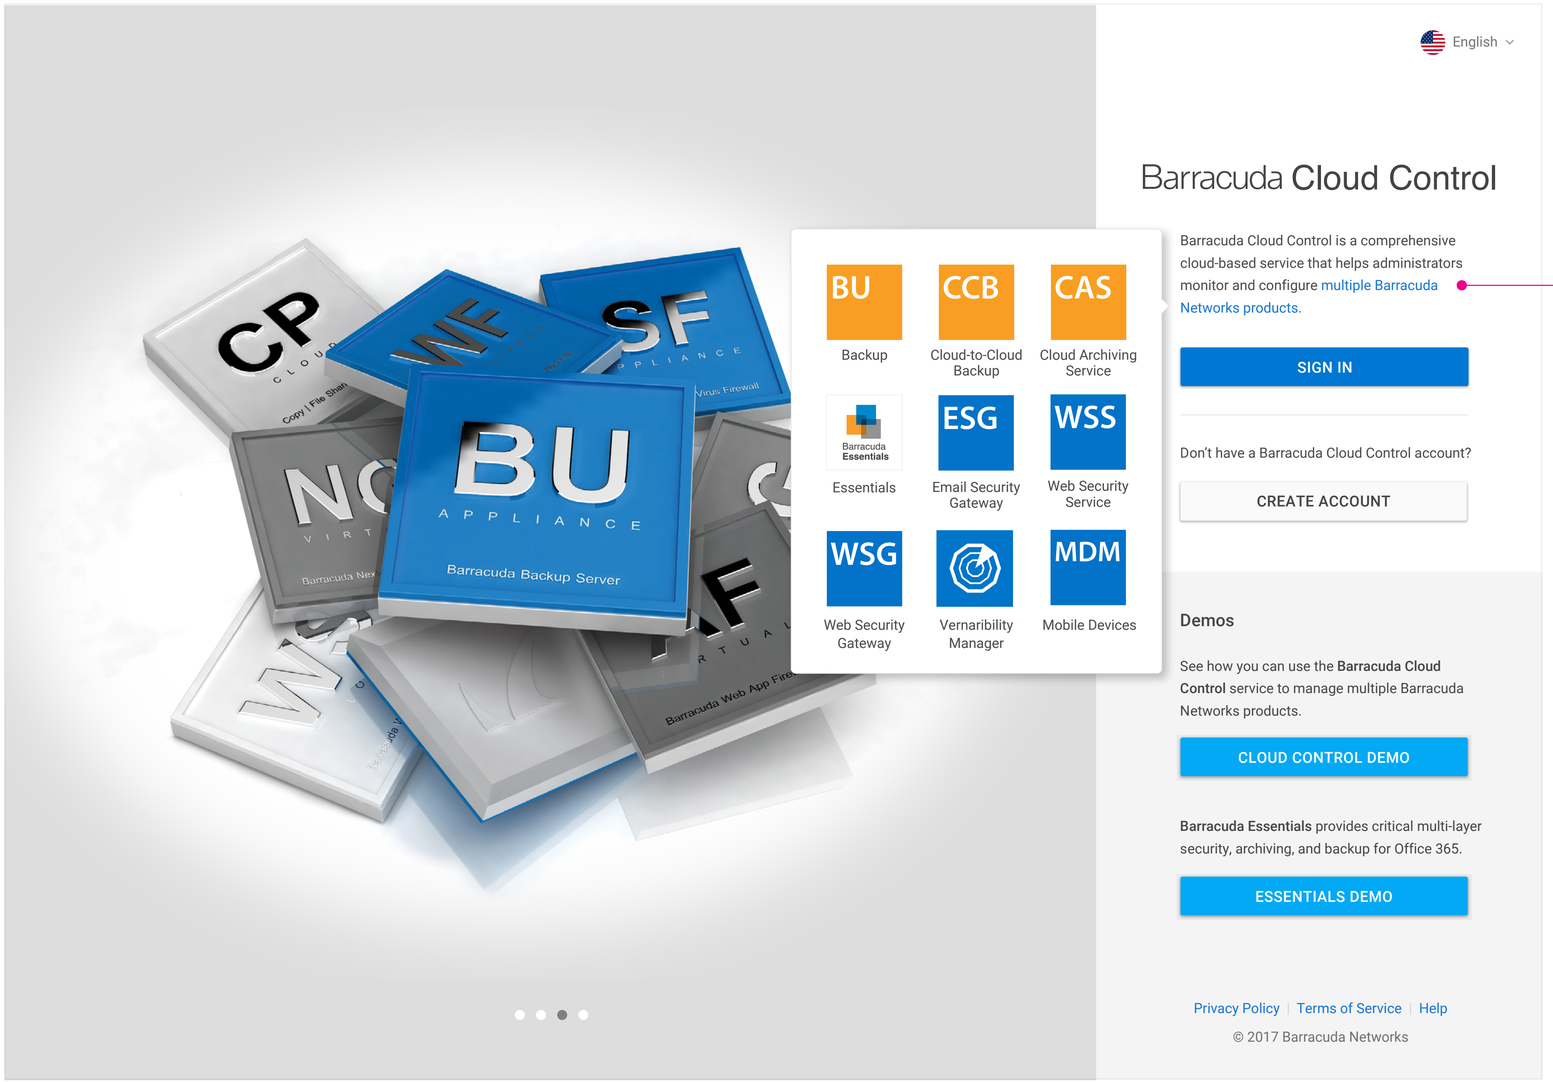
Promotion

Introduce a product promotion area
that supports the Barracuda brand identity.
Only BCC products should be used.



Product Popover



On click, customer can view all BCC products. When they click on each product, the authentication screen is presented (see page 5) and then the chosen product is highlighted after sign-in.
